

TELEVISION STUDIES – OCW UC3M**Topic III. Technology and the History of Television****Exercise of the week:**

Find information about one the television or video-related technologies of the list, including when it was invented and how it works. Then ask family members and/or friends about how their television viewing was affected by the introduction of this technology. Write a short commentary including your own experiences.

Television or video-related technologies:

- Remote control.
- Satellite/Cable television.
- DVR (Digital Video Recorder).
- YouTube.
- Streaming services (Netflix, Wuaki...)
